Section Business:

September 2011 Carissa Mine tour

Jon Lane gave us a very fun and informative tour of the Carissa Mine. Jon has done a remarkable job of restoring the ore processing plant-including obtaining cir. 1940's machinery and sleuthing early metallurgical processes. We were the last group to tour the Carissa this season!

Conference call with John Murphy, 2011 SME President and Dave Kanagy, SME Executive Director

Caleb Bestgen, Terry Leigh, and Jane Fillmore participated in this conference call on September 30. Items discussed included obtaining C.E. credits for meeting attendance, scholarships, and member recruitment.

New Membership Drive

We have a lot of information to pass out to prospective SME members. I would be delighted if our Chapter members would take some pamphlets back to hand out to new employees. Some of the many benefits of belonging to SME are: Mining Engineering magazine; access to ONEMINE.org, SME's global mining and minerals library; discounted publications; short courses; SME e-learning; discounted entry into SME's Annual Meeting and Exhibit; and many more.

SME Divisions

- Coal
- Environmental
- Industrial Minerals
- Mining and Exploration Mineral & Metallurgical Processing
- Underground Construction Association (UCA of SME)
- WAAIME - The Woman's Auxiliary to the AIME

Please remember to
thank our sponsors.
