December 2013 National Science Teachers Convention

The MEC Subsection (Minerals Education Coalition, formerly GEM) is once again hosting a teachers’ outreach exhibit at the National Science Teachers Convention at the Colorado Convention Center in December 2013. This year’s active members have selected the theme, “Minerals Make Life!” highlighting the use of mineral products in food and health products. We are actively seeking volunteers brainstorm the logistics, to prepare the mineral kits, to work the event, and donors (financial, storage space, transport and materials) to help cover the cost of the kits to be given to attending teachers. Members of the MEC will follow up with detailed updates as the date gets closer. As always, the outreach-focused MEC meetings are open to anyone that is interested, generally the first Friday of each month. Contact Subsection Chair, Dick Beach, dickbeach@alumni.mines.edu with questions or to volunteer.
