

HOT TOPICS: MINING & EXPLORATION DIVISION

- New technology, robotics.
- Where will future mineral demand come from, mineral substitutions i.e. battery minerals like lithium.
- Drilling and blasting struggles/solutions, new technology.
- Automation of machines and processes.
- Equipment sizes: Is bigger better?
- Green technology Implementation in mining i.e. battery powered equipment etc.
- Data Collection - Deciding what data is important and how to best utilize it.
- Struggles encountered with permitting new mining operations, solutions.
